

Garrett Korte, PGA
gkorte@pgahq.com

Serving as the PGA Career Consultant for the Tri-State and Northern & Southern Ohio PGA Sections is both an honor and a privilege. My personal journey in golf began with hands-on experience in golf course maintenance at Pike Run Golf Club and Hillcrest Golf Club before transitioning into club operations. Degrees in Business Management and Operations & Logistics from the University of Findlay laid the foundation for a career in golf, which started at Findlay Country Club under Chadwick Bain, PGA.

My career developed with experience at prestigious clubs such as Huntingdon Valley Country Club, The Country Club in Pepper Pike, and Sand Ridge Golf Club—where my responsibilities expanded to Head Golf Professional & Director of Operations—helped develop a deep understanding of club operations, tournament management, coaching, and leadership development.

Passionate about mentorship and career development, a strong focus has been placed on helping fellow PGA Professionals navigate their career paths. My strengths include leadership training, operational efficiency, player development, and strategic career planning. Along the way, I've achieved multiple PGA certifications: Golf Operations, Coaching & Teaching, Executive Management, Ownership & Leasing, Retail, Player Development, and General Management, along with TPI certifications in Player Development and Junior Golf. This has provided a well-rounded perspective to support others in their professional growth. The goal is to assist PGA Members and Associates in achieving success while continuing to elevate the game and business of golf. I am always available to help and look forward to working alongside those dedicated to this great profession.
